REQUIREMENTS FOR BOARDING

1. All animals must be current on all vaccinations.
2. All animals must be free of external parasites (ex. ticks, fleas, etc.), or they will be treated at owner's expense.
3. Pine Hills Veterinary Hospital, PC has my permission to do whatever is necessary should an emergency arise.
4. If sedation is necessary for treatment or handling, Pine Hills Veterinary Hospital, PC has my permission to administer medication.
5. Pets may be dropped off or picked up during regular hours only.

Reasonable precautions will be used to prevent injury, escape, or death of this pet. The hospital and staff will not be held liable for problems that develop provided reasonable care and precautions are followed. I understand that any problem that develops with my pet will be treated as deemed best by the staff of Pine Hills Veterinary Hospital, PC, and I assume all responsibility for the treatment expense involved.

All pets must be current on their vaccinations (including Bordetella). If proof of vaccinations is not provided to the hospital, or the hospital does not have the required vaccination current, per the patient's records, the pet will be vaccinated at the owner's expense. Puppies must have at least three rounds of vaccinations to board unless they have had two rounds of vaccinations and are within one week of being due for the third round, in which case, the pet will be given the third round of vaccinations and Bordetella upon checking in for boarding.

If the need to extend the stay of the pet beyond the original pick-up date arises, notice must be given to the staff. If no notice is given, the cost of boarding will be 1.5 times the normal nightly fee.

I have read the boarding requirements, understand and agree to the hospital's policies.
